Computer and video games have a Pan-European Game Information (PEGI) rating printed on the front of the case. If your child is at Pensans, any game they play or watch should have a green PEGI. Please be aware that playing games out of their age range is a child protection issue and be aware of what they are playing. Even if your child is only watching an older family member playing a game with a 12, 16 or 18 rating, they still are being exposed to unsuitable material.

There have been recent reports in nearly every major news channel about 'Momo'. To respond to this we are recommending that parents and carers read the National Online Safety guide which provides information to help. It includes tips to better monitor online activity and have meaningful conversations with their children about online safety. The guide is on our FaceBook page or can be accessed here: <https://nationalonlinesafety.com/resources/platform-guides/momo-online-safety-guide-for-parents/>
